The federal income tax is a "pay-as-you-go" tax. You must pay the tax as you earn or receive income during the year. There are two easy ways to do this:

1. WITHHOLDING: If you are an employee, your employer will withhold income tax from your pay. Tax is also withheld from other types of income -- including pensions, bonuses, commissions, and gambling winnings. In each case, the amount withheld is paid to the Internal Revenue Service in your hame.

If too little tax is being withheld from your wages to pay the taxes you will owe at the and of the year, you should file a new Form W-4, Employee's Withholding Allowance Certificate, with your employer to change the amount of withholding.

2. ESTIMATED TAX PAYMENTS: If you don't pay your tax through withholding, or don't pay enough tax through withholding, you have to estimate the tax you will owe and make payments during the year directly to the IRS.

If you need more information about changing your Form W-4 or making estimated tax payments, please call us today. Publication 505 explains both methods in detail. You may request forms and Publication 505 by calling 1-800-829-FORM.

If you write to us or send additional information (including
